

# Multi-Service Business Gateway for SMB

*Cipherium is looking for REGIONAL CHANNEL PARTNERS*

Cipherium cordially invites you to join Computex Taipei 2006, held from June 6-10, where we will showcase a cutting-edge **Multi-Service Business Gateway** especially designed for SMB.

## Cipherium MB120 Multi-Service Business Gateway for SMB

An all-in-one, high-performance network appliance designed for SMB, making it easier and more productive to build and maintain a small business or remote office network in a reliable as well as cost-effective way.

Welcome to visit us at the “Inner Circle” of Intel VIP Room at 4F Taipei International Convention Center, Exhibition Hall 4.

**Cipherium Systems Co., Ltd.**, a leading network management solution provider based in Taiwan, designs and develops high performance network security & service management appliances for WLAN networks, providing our partners with a wide range of advanced, easy-to-use products.
